

F.Y. B.Sc. IT SEM-2: 206-SEC-2 Application of AI for Students

MCO BANK

Sr. No.	Question	Option - 1	Option - 2	Option - 3	Option - 4
1	Best tool for trend analysis is:	ChatGPT	Copilot	Gemini	ChatGPT
2	AI improves LinkedIn profiles by:	Removing keywords	Enhancing headlines and summaries	Deleting posts	Reducing engagement
3	Brainstorming with ChatGPT is useful for:	Hardware design	Research topic selection	Network configuration	Virus detection
4	Which of these is an AI video model?	Sora	Suno	Midjourney	Copilot
5	Professional emails should have which feature?	Emojis only	Slang	Clear structure	Casual language
6	Over-dependence on AI may lead to which of the following?	Better learning	Reduced skills	Faster thinking	Creativity boost
7	Gemini is especially useful for:	Gaming	Research assistance	Hardware control	System security
8	Generative AI focuses on:	Storage	Classification	Sorting data	Creation
9	A limitation of Gemini is:	No text support	Requires internet connectivity	Slow response	No research ability
10	Deep learning is a subset of what?	AI	Cloud computing	Networking	OS
11	What does the "Chat" in ChatGPT stand for?	Conversational Hi-Tech	It refers to the conversational interface of the model	Certified Human-like Automated Text	Nothing, it's just a name

F.Y. B.Sc. IT SEM-2: 206-SEC-2 Application of AI for Students

MCO BANK

Sr. No.	Question	Option - 1	Option - 2	Option - 3	Option - 4
12	Which tool is known for strong real-time web search integration and is developed by Google?	ChatGPT	Gemini	Gamma	Copilot
13	AI-generated interview questions are based on what?	Job role	Industry standards	Skills	All of the above
14	Which industry widely uses Generative AI?	Education	Healthcare	Business	All of the above
15	AI is best used as:	Replacement	Shortcut	Partner	Judge
16	DeepSeek provides insights based on?	AI algorithms	Random data	Manual input only	Sensors
17	Which AI feature is useful for report structure?	Idea generation	Outline creation	Grammar correction	All of the above
18	AI prioritizes tasks based on:	Length	Font size	Urgency and importance	File type
19	The STAR method in interviews refers to which of the following?	Skill-Task-Answer-Result	Situation-Task-Action-Result	Study-Time-Answer-Review	Step-Tool-Analysis-Response
20	ChatGPT helps students in essay writing by:	Generating outlines and drafts	Writing code	Evaluating marks	Checking attendance
21	AI-generated emails should be:	Reviewed and personalized	Copied blindly	Sent directly	Ignored
22	Suno AI is used for:	Photo editing	Music/audio generation	Weather forecasting	Data encryption

F.Y. B.Sc. IT SEM-2: 206-SEC-2 Application of AI for Students

MCO BANK

Sr. No.	Question	Option - 1	Option - 2	Option - 3	Option - 4
23	Using AI to write a full essay is?	Ethical	Encouraged	Unethical	Required
24	Personal branding mainly focuses on:	Online professional presence	Exam preparation	Hardware skills	Attendance tracking
25	What is Generative AI?	AI that only analyzes data	AI that generates new content	AI used only in robotics	AI without learning
26	AI helps students finish projects:	On time	Late	Without learning	Without effort
27	AI feedback analyzes:	Answer length only	Clarity and confidence	Internet speed	File size
28	The main goal of using AI for career growth is	Avoid effort	Achieve sustainable success	Copy others	Reduce skills
29	ChatGPT interacts with users using:	Programming code	Natural language	Binary input	Mathematical formulas
30	DeepSeek is popular because it is:	Expensive	Lightweight	Hardware-based	Offline
31	Creating outlines using AI helps improve:	Speed only	Organization and clarity	Internet access	Marks directly
32	AI tools should be used as:	Replacement for humans	Shortcut for exams	Support tools	Automatic evaluators
33	AI helps teachers by:	Increasing workload	Automating repetitive tasks	Replacing teachers	Reducing learning

F.Y. B.Sc. IT SEM-2: 206-SEC-2 Application of AI for Students

MCO BANK

Sr. No.	Question	Option - 1	Option - 2	Option - 3	Option - 4
34	AI-based mock interviews help candidates improve?	Confidence	Communication	Answer structure	All of the above
35	AI career-related activities include:	Gaming	Resume creation	Hardware repair	Attendance marking
36	One advantage of AI in assignment writing is:	Reduces creativity	Saves time	Removes thinking	Increases errors
37	AI should be used in projects as:	Replacement for students	Support tool	Exam solution	Shortcut
38	AI image models generate images using:	Text prompts	Voice commands	Sensors	Databases
39	GitHub Copilot mainly helps in:	Image design	Music composition	Programming	Video editing
40	AI-generated resumes are best when:	Copied directly	Reviewed and customized	Left unchanged	Submitted blindly
41	Copilot is developed by:	Google	Microsoft	OpenAI	Meta
42	AI converts job responsibilities into:	Code	Paragraphs	Impact-based statements	Questions
43	Reviewing AI output is important to:	Avoid effort	Save time	Personalize content	Skip learning

F.Y. B.Sc. IT SEM-2: 206-SEC-2 Application of AI for Students

MCO BANK

Sr. No.	Question	Option - 1	Option - 2	Option - 3	Option - 4
44	Deepseek is often noted for its capabilities in	Painting digital art	Editing 4K video	Searching and analyzing academic and business trends	Playing high-end video games
45	Students should always:	Trust AI blindly	Verify AI output	Avoid AI completely	Submit AI text directly
46	Which technology enabled the rise of Generative AI?	Cloud computing	Blockchain	Quantum computing	IoT
47	A limitation of ChatGPT is:	Slow response	Incorrect or outdated information	Poor language skills	No creativity
48	AI-based career tools support	Continuous improvement	Skill upgrading	Professional growth	All of the above
49	Which sector is most impacted by AI?	Education	Business	Healthcare	All of the above
50	AI helps overcome:	Exams	Writer's block	Attendance	Grades
51	AI tools cannot replace:	Subject knowledge	Slides	Notes	Emails
52	AI progress tracking helps by:	Hiding delays	Removing goals	Showing dashboards	Ignoring performance
53	Copilot works using:	Keyboard shortcuts	Natural language prompts	Programming scripts	Voice commands only

F.Y. B.Sc. IT SEM-2: 206-SEC-2 Application of AI for Students

MCO BANK

Sr. No.	Question	Option - 1	Option - 2	Option - 3	Option - 4
54	Best tool for essay writing is:	Copilot	DeepSeek	ChatGPT	Gemini
55	Which technology powers Generative AI systems?	Artificial Neural Networks	Computer Graphics	Operating Systems	Networking
56	Personal branding with AI requires?	Authenticity	Consistency	Professionalism	All of the above
57	Gamma is mainly used for:	Coding	Presentations	Music creation	Video editing
58	Which tool would you use to quickly summarize a long PDF article for a research paper?	Excel	ChatGPT or Gemini	PowerPoint	Windows Calculator
59	A key concern of AI in education is:	Speed	Ethics and equity	Automation	Accuracy
60	AI adjusts schedules when:	User ignores tasks	Tasks are delayed	Internet fails	Files are deleted
61	ATS stands for:	Automated Talent System	Applicant Tracking System	Advanced Technical Software	Artificial Talent Selector
62	Copilot helps mainly in:	Manual work	Slowing tasks	Automation	Errors
63	Which of these is a responsible way for a student to use AI?	Submitting an AI-generated essay as their own work	Using AI to explain a complex concept they don't understand	Asking AI to write a test for them during the exam	Using AI to generate fake citations

F.Y. B.Sc. IT SEM-2: 206-SEC-2 Application of AI for Students

MCO BANK

Sr. No.	Question	Option - 1	Option - 2	Option - 3	Option - 4
64	Which task can ChatGPT perform?	Drafting emails	Hardware installation	Network routing	Image scanning
65	AI-assisted notes improve:	Confusion	Readability	Length	Plagiarism
66	DeepSeek uses AI mainly for:	Intelligent search and analysis	Office automation	Hardware control	Image generation
67	Notion AI is used for which of the following?	Video editing	Content writing and organization	Music generation	Image processing
68	Presentation creation using AI focuses on:	Designing and structuring slides	Manual drawing	Coding	Printing notes
69	Rezi is best suited for:	Bullet point achievements	Creative posters	Email writing	Event planning
70	Personal branding helps professionals to:	Hide skills	Increase visibility	Reduce opportunities	Avoid networking
71	What is a "Mock Interview" with AI?	The AI makes fun of the user	The AI acts as an interviewer and asks relevant questions	The AI hires the user immediately	The AI writes a fake review of the company
72	Hands-On AI Applications mainly focus on:	AI theory	Practical use of AI tools	Hardware design	Networking concepts
73	Which tool helps with visual personal branding?	Jobscan	Canva AI	Rezi	Todoist

F.Y. B.Sc. IT SEM-2: 206-SEC-2 Application of AI for Students

MCQ BANK

Sr. No.	Question	Option - 1	Option - 2	Option - 3	Option - 4
74	AI can generate which type of interview questions?	Only HR	Only technical	HR, technical, behavioral, situational	Only MCQs
75	Which is NOT a function of AI for career growth?	Skill gap analysis	Personalized learning	Career planning	Hardware installation
76	Copilot in PowerPoint helps in:	Writing code	Creating presentations	Database design	Audio mixing
77	GPT stands for:	General Processing Tool	Generative Pre-trained Transformer	Global Prediction Technology	Graph Processing Tool
78	A good email prompt should include:	Only greeting	Only subject	Purpose and tone	No details
79	Best tool for office productivity is:	Gemini	ChatGPT	DeepSeek	Microsoft Copilot
80	Hands-on AI activities help build:	Dependence	Laziness	Confidence	Confusion
81	Google Calendar uses AI mainly for which purpose?	Resume writing	Scheduling	Interview practice	Branding
82	One benefit of AI interview practice is:	Increased anxiety	Immediate feedback	Longer interviews	Fewer skills
83	Which AI tool is best known for ATS optimization?	Canva	Jobscan	Grammarly	Hootsuite
84	Microsoft Copilot is primarily integrated with which productivity suite?	Google Workspace	Microsoft 365 (Word, Excel, PowerPoint)	Adobe Creative Cloud	Apple iWork

F.Y. B.Sc. IT SEM-2: 206-SEC-2 Application of AI for Students

MCO BANK

Sr. No.	Question	Option - 1	Option - 2	Option - 3	Option - 4
85	AI improves interview readiness by:	Eliminating interviews	Practicing questions	Reducing skills	Avoiding feedback
86	Which Excel task can Copilot perform?	Hardware testing	Formula generation	Network monitoring	Virus scanning
87	ChatGPT is effective in summarization because it can:	Verify citations	Scan images	Access live journals	Extract key points
88	Which is an example of Generative AI?	ChatGPT	Calculator	Firewall	Antivirus software
89	Hootsuite with AI is mainly used for:	Resume writing	Interview preparation	Consistent posting	Task scheduling
90	Gemini is developed by:	OpenAI	Microsoft	Google	Amazon
91	AI mock interviews mainly help students to	Skip interviews	Memorize resumes	Practice answers	Avoid preparation
92	AI-created cover letters should be what?	Generic	Personalized	Copied	Ignored
93	Which is NOT part of Hands-On AI?	Chatbots	Image processing	Recommendation systems	Manual bookkeeping
94	Motion AI is known for:	Resume checking	Automatic daily planning	Interview feedback	Grammar correction
95	AI tools are most effective when combined with	Human judgment	Blind trust	No effort	Guesswork

F.Y. B.Sc. IT SEM-2: 206-SEC-2 Application of AI for Students

MCO BANK

Sr. No.	Question	Option - 1	Option - 2	Option - 3	Option - 4
96	Ethical use of AI in careers means	Misrepresentation	Honest and responsible use	Cheating	Plagiarism
97	Which task is supported by Hands-On AI in academics?	Cooking	Assignment writing	Driving	Gaming
98	Which AI tool is commonly used for drafting academic text?	ChatGPT	Calculator	BIOS	Task Manager
99	DeepSeek is mainly designed for:	Image editing	Trend analysis	Presentation design	Gaming
100	Which feature of Copilot saves time?	Manual typing	Automated content suggestions	Hardware control	System optimization
101	Gemini's main strength is:	Coding	Research and explanations	Presentation design	Email drafting
102	AI is useful in event planning for:	Cooking	Gaming	Task checklists and schedules	Transportation
103	AI lacks which important human quality?	Speed	Logic	Emotional connection	Memory
104	Gemini is strong in:	Network security	Quick explanations	Hardware automation	Software installation
105	Hands-On AI emphasizes:	Memorization	Experiential learning	Theoretical exams	Manual work
106	AI brainstorming helps in:	Creativity	Problem-solving	Idea expansion	All of the above

F.Y. B.Sc. IT SEM-2: 206-SEC-2 Application of AI for Students

MCO BANK

Sr. No.	Question	Option - 1	Option - 2	Option - 3	Option - 4
107	DeepSeek can be used for:	Coding, reasoning, research tasks	Plastic manufacturing	Carpentry	Driving cars
108	Which is a benefit of AI-based resume writing?	Increased errors	Better shortlisting chances	Reduced clarity	Manual effort
109	Ethical risk of ChatGPT misuse includes:	Data loss	Plagiarism	Hardware failure	Slow internet
110	Microsoft Copilot is integrated into:	Google Workspace	Microsoft 365	Linux OS	Android Studio
111	ChatGPT is developed by:	Google	Microsoft	OpenAI	DeepSeek
112	AI in education helps mainly in:	Ignoring students	Punishment	Personalized learning	Cheating
113	Which of the following is NOT a common output type of generative AI?	Human-like text	Synthetic realistic images	Database query optimization plans	Computer-generated music
114	DALL·E and Midjourney are used for:	Audio synthesis	Text translation	Video editing	Image generation
115	Personalized learning means:	Same content for all	Teacher-only instruction	Tailored learning for individuals	Offline learning only
116	LLM stands for:	Low Language Model	Large Learning Machine	Large Language Model	Logical Language Model
117	A limitation of Microsoft Copilot is:	Poor accuracy	Requires Microsoft 365 subscription	No language support	Slow processing

F.Y. B.Sc. IT SEM-2: 206-SEC-2 Application of AI for Students

MCO BANK

Sr. No.	Question	Option - 1	Option - 2	Option - 3	Option - 4
118	Over-reliance on AI can lead to:	Better creativity	Reduced critical thinking	Faster learning	Higher originality
119	Grammarly is useful for:	Design	Grammar and clarity	Scheduling	Analytics
120	AI tools can help students by:	Writing assignments only	Replacing teachers	Enhancing learning efficiency	Avoiding studies
121	What does a Generative AI model learn during training?	Colors only	Patterns, structure, and relationships in data	Hardware features	Battery usage
122	AI interview preparation includes:	Mock questions	Feedback	Confidence building	All of the above
123	OpenAI Sora is used for:	Video generation	Audio editing	Text summarization	Email automation
124	Applicant Tracking Systems (ATS) are used to?	Track employees	Screen resumes automatically	Monitor attendance	Control payroll
125	What is the most recommended first step when using AI for writing an academic assignment?	Ask the AI to write the complete 2000-word report immediately	Request a detailed outline based on the assignment topic and requirements	Copy-paste the entire rubric into the prompt without structure	Ask for references only
126	Gemini supports which type of input?	Only text	Only images	Multimodal	Audio only

F.Y. B.Sc. IT SEM-2: 206-SEC-2 Application of AI for Students

MCO BANK

Sr. No.	Question	Option - 1	Option - 2	Option - 3	Option - 4
127	DeepSeek is mainly used for:	Gaming	Searching and analysis	Video editing	Animation
128	Kickresume is mainly used for:	Interview scoring	Fast resume generation	Data analysis	Scheduling tasks
129	Students should always:	Trust AI blindly	Verify AI output	Avoid AI completely	Submit AI text directly
130	AI literacy is important for careers because?	AI replaces humans	AI is widely used in workplaces	AI stops creativity	AI eliminates learning
131	Hands-On AI helps students gain:	Only grades	Job-ready skills	Hardware skills	Sports skills
132	AI helps manage to-do lists by:	Deleting tasks	Prioritizing work	Ignoring deadlines	Increasing workload
133	Pattern recognition in DeepSeek helps in:	Image coloring	Forecasting trends	Email writing	Document formatting
134	AI helps overcome which problem in writing?	Slow typing	Writer's block	Internet issues	Formatting errors
135	ChatGPT can help in:	Essay writing	Summarization	Idea generation	All of the above
136	One major benefit of AI in project planning is:	Delays work	More stress	Saves time	Less organization
137	Which AI tool is best for Office automation?	Copilot	Paint	Notepad	VLC

F.Y. B.Sc. IT SEM-2: 206-SEC-2 Application of AI for Students

MCO BANK

Sr. No.	Question	Option - 1	Option - 2	Option - 3	Option - 4
138	Which of the following is the main reason ethical AI use is important for students?	To complete homework faster	To maintain academic integrity	To avoid using textbooks	To bypass exams
139	Which task is most suited for AI in "Email & Communication"?	Sending emails to the wrong people	Drafting professional tones for formal messages	Turning off the internet	Deleting the inbox
140	Which AI can write poems and stories?	Expert systems	Robotics	Generative AI	. Rule-based AI
141	ChatGPT's main strength is:	Trend analysis	Human-like writing	Office integration	Data visualization
142	AI tools help in resume writing by improving	Grammar and structure	Font color only	File size	Printing speed
143	A limitation of DeepSeek is:	Lack of speed	Dependence on data quality	Poor analysis	No academic use
144	AI can suggest LinkedIn post ideas based on?	Industry trends	Professional goals	Skills	All of the above
145	Responsible AI use ensures:	Speed only	Automation only	Academic integrity	Full dependency
146	AI tools are mainly used by students to:	Save time and effort	Replace teachers	Avoid studying	Skip classes
147	AI improves teamwork by:	Removing communication	Summarizing discussions	Creating conflicts	Avoiding meetings

F.Y. B.Sc. IT SEM-2: 206-SEC-2 Application of AI for Students

MCO BANK

Sr. No.	Question	Option - 1	Option - 2	Option - 3	Option - 4
148	AI theory mainly focuses on:	Practical deployment	Why machines act intelligently	Assignment writing	Presentation design
149	Which model is commonly used in Generative AI?	Decision Tree	Neural Networks	KNN	Linear Regression
150	AI tools primarily use which technologies?	Blockchain and IoT	Machine Learning and NLP	Networking protocols	Operating systems
151	Who is responsible for final academic work?	AI tool	Teacher	Student	Institution
152	Which AI concept allows learning from data?	Machine Learning	Networking	Hardware	Compiler
153	Which tool is primarily known for creating AI-powered presentations (slides)?	ChatGPT	Deepseek	Gamma	Excel
154	AI-based scheduling tools help in	Task prioritization	Time allocation	Deadline tracking	All of the above
155	which tool is particularly strong for turning rough bullet-point notes into a coherent report introduction?	Microsoft Copilot in Word	DeepSeek (strong reasoning)	Gemini (with real-time research)	Gamma (visual cards only)
156	A limitation of AI note-taking tools is:	Miss important details	Too slow	No structure	No summaries
157	AI stands for:	Artificial Information	Automated Intelligence	Artificial Intelligence	Automatic Interaction
158	Generative AI mainly learns from	Small datasets	Predefined rules	Massive amounts of data	User guesses

F.Y. B.Sc. IT SEM-2: 206-SEC-2 Application of AI for Students

MCO BANK

Sr. No.	Question	Option - 1	Option - 2	Option - 3	Option - 4
159	Final responsibility for academic work lies with:	AI tool	Teacher	Student	Institution
160	Which of the following is an example of Generative AI?	Calculator	Spell checker	ChatGPT	Antivirus
161	How does AI help in assignment writing?	Copying content	Generating outlines	Skipping research	Plagiarism
162	Gemini is integrated with:	Microsoft Office	Google Workspace	Adobe tools	Linux tools
163	Choosing an AI tool depends on:	Task requirement	Popularity	Color	Cost only
164	One advantage of ChatGPT is:	Real-time data access	Enhances writing quality	Replaces human thinking	Eliminates exams
165	DeepSeek is widely used in:	Gaming industry	Market trend analysis	Video editing	Web development
166	For "Time Management," an AI tool can	Analyze your calendar to suggest the best times for "Deep Work"	Stop time	Do your work while you sleep	Increase the speed of your clock
167	Behavioral interview questions focus on:	Resume formatting	Technical coding	Past experiences	Job portals
168	Which tool helps with Excel formulas?	Gamma	DeepSeek	Copilot	Midjourney

F.Y. B.Sc. IT SEM-2: 206-SEC-2 Application of AI for Students

MCO BANK

Sr. No.	Question	Option - 1	Option - 2	Option - 3	Option - 4
169	Copilot in Word helps with:	Data visualization	Document writing and editing	Image creation	Video editing
170	Which is NOT a Generative AI tool?	ChatGPT	Gemini	Copilot	MS Paint
171	AI tools help prevent missed deadlines by:	Ignoring tasks	Sending reminders	Delaying schedules	Reducing goals
172	AI should NOT be listed as:	Reference	Tool	Author	Assistant
173	Best tool for research & quick learning is:	Copilot	Gemini	DeepSeek	ChatGPT
174	AI can contain:	Emotions	Bias	Consciousness	Intent
175	AI can adjust email tone to:	Only casual	Formal, neutral, or friendly	Angry	Informal only
176	Generative AI reuses knowledge to:	Store data	Solve new problems	Delete information	Control hardware
177	Gemini helps in topic exploration by:	Running simulations	Explaining topics simply	Writing code	Monitoring exams
178	Which AI tool is used for presentations?	Gamma	Excel	Notepad	Paint
179	AI helps in time management by:	Ignoring schedules	Creating study plans	Delaying work	Increasing pressure

F.Y. B.Sc. IT SEM-2: 206-SEC-2 Application of AI for Students

MCO BANK

Sr. No.	Question	Option - 1	Option - 2	Option - 3	Option - 4
180	AI-generated study guides help in:	Exam preparation	Entertainment	Attendance	Sports
181	Final hands-on AI activity focuses on:	Theory only	Real-life tasks	Exams	Memorization
182	Which sector widely uses AI for hiring?	Education	Healthcare	IT and corporate sectors	Agriculture only
183	Traditional AI focuses on:	Classification	Content generation	Creativity	Innovation
184	Gemini supports literature review by:	Providing live citations	Summarizing articles	Publishing journals	Reviewing exams
185	Generative AI can create:	Only text	Only images	Text, images, code, audio	Only numbers
186	Ethical use of DeepSeek requires:	Blind reliance	Decision-support usage	Copying insights	Avoiding verification
187	AI helps in professional emails by:	Making excuses	Improving tone and clarity	Adding false information	Removing details
188	Entering personal data into AI tools is:	Recommended	Safe	Risky	Mandatory
189	Suno and MusicLM are related to which of the following technologies?	Video creation	Image processing	Data mining	Music generation
190	Ethical AI use means:	Copying AI output	Replacing own work	Augmenting own work	Ignoring policies

F.Y. B.Sc. IT SEM-2: 206-SEC-2 Application of AI for Students

MCO BANK

Sr. No.	Question	Option - 1	Option - 2	Option - 3	Option - 4
191	AI automates which type of work?	Creative thinking	Ethical judgment	Routine tasks	Emotional skills
192	Copying AI-generated text directly is considered:	Ethical	Recommended	Improper use	Skill ful
193	First step in a hands-on AI activity is:	Select a real-life task	Submit output	Copy AI result	Ignore instructions
194	Deepseek is useful for which task?	Searching trends	Playing games	Photo editing	Security
195	OpenAI Sora is used for:	Coding	Video generation	Text summarization	Image editing
196	Using AI to write a full essay is:	Ethical	Encouraged	Unethical	Required
197	Productivity insights help identify:	Time-wasting activities	Exam questions	Resume keywords	Interview answers
198	AI in networking helps professionals by:	Writing LinkedIn posts	Limiting contacts	Blocking profiles	Removing connections
199	Which AI feature helps resumes pass ATS systems?	Images	Keywords optimization	Page borders	Emojis
200	DeepSeek's main strength is:	Pattern detection	Writing essays	Slide creation	Grammar checking
